A Moment in History

During Prohibition, the bootlegging business was so immense that customers could easily obtain alcohol by simply walking down almost any street. Illegal "Speakeasies" replaced the saloons that were quickly shut down. Secretly operating in places as basements, office buildings and abandon buildings, alley way entrances were used to let patrons in. Though you needed to whisper the pass word of the night, knock three times or have a membership card to gain access. An owl behind the bar meant it was the place to be. (Look above our bar!).
